Product Description

Besta is a Chinese manufacture for PPR Plastic Fitting Union. We have more than 10years experience in water pipe system and we have more than 200sets moulds to produce full range ppr pipe fittings,ball valves, and some other pipe fittings.

Besta brand PPR fitting adopts imported raw material RA140E or R200P, and well sell in Africa, Middle east ,South America, Asia etc market. Besta PPR fittings design are very good, surface is perfect, quality is high, price is cheap.Besta union designed with more thicker ,heavier and more longer thread than market product, so our ppr union can bear more higher pressure. Plastic PPR union mostly used for cold water, for hot water use PPR brass union.
